

ABOUT THIS BOOK

This book is a re-boot of “The Book of Tobias”.

The book of Tobias is a biblical story about a father and son, that contains the grandest angelophany of the whole Bible, and it all revolves around the manifestation of the Archangel Raphael under the assumed name and form of a beautiful young man named Azarias.

This story like all of the stories in this series is a fictional account of the authors understanding of an example of God’s pre-ordained message to his people about the lives they live and how He has provided instructions about our relationship with Him. God watches over us and encourages us to seek him in all situations and this is just one account of how He works in our lives.
