

## ABOUT THIS BOOK

BlackJack Jones recently found his destiny in life, that of a Spiritual Detective, or one who is anointed to battle Demons and Evil spirits from the spirit realm in the natural realm. His first introduction to this special anointing was captured in an earlier volume under his name entitled "Eye of Discernment."

In that story BlackJack was introduced to the world in a trial by fire unbeknownst to him. He found himself in a life and death battle with the spirit of Gangsta, or Gang banging. This wildly evil spirit was attempting to take over an entire church from the Pastor, to the First Lady and the entire church leadership. But thanks to Detective Jones the attempt was foiled.

Now in an act of revenge the same evil spirit has brought Detective Jones to his court and wants to make an example of him to his peers and all those who honored his hard fought battle against him in the natural realm.

This encounter has a dual purpose on the one hand it is a wakeup call to all who may follow in Jones footsteps and on the other it is Jones only opportunity to begin securing all that God has to protect him with while he is in His service.

Read as Jones's spiritual encounter unfolds in front of you, as his earthly body clings to life in a medically induced coma and his spirit wonders to the first chapter of his destiny. Jones finds himself in yet another life and death battle he learns that even the spirit world has an order to its authority and while God does have the last say there seems to be no guarantees of victory in this revelation for the dead, as BlackJack Jones searches for his first heavenly reward the "Shoes of the Gospel".
