

ABOUT THIS BOOK

This collection of understandings I call them those things that have been hidden in plain sight for all of us to see and grasp to better understand why God gave and gives us life.

God wants to walk every step of the way with us and show us what he can do, how he does things, encourage us and protect us. So what better way to understand the kind of relationship we could have with God than taking a walk in his shoes.

So I hope you find some clarity in these pages or merely inspiration from the steps Jesus took for all of us during His time on earth.
