

ABOUT THIS BOOK

INTENSE defines the environment where a police officer finds himself in need of a cop and can't find one.

This is a story about a black police officer that is brought into an all-white homicide squad for the purposes of diversification...

But when immediately after this new detective's arrival, the number of cases cleared per month dropped to 6 from 35, as the number of suspicious deaths of homicide detectives' skyrocketed, questions begin to fly.

Join detective Moe Trouble, on his new job, as a homicide detective at the NCPD 5th precinct. As he finds himself in an 'INTENSE' situation that many of his peers would ask, "Is this the job to die for."
