

ABOUT THIS BOOK

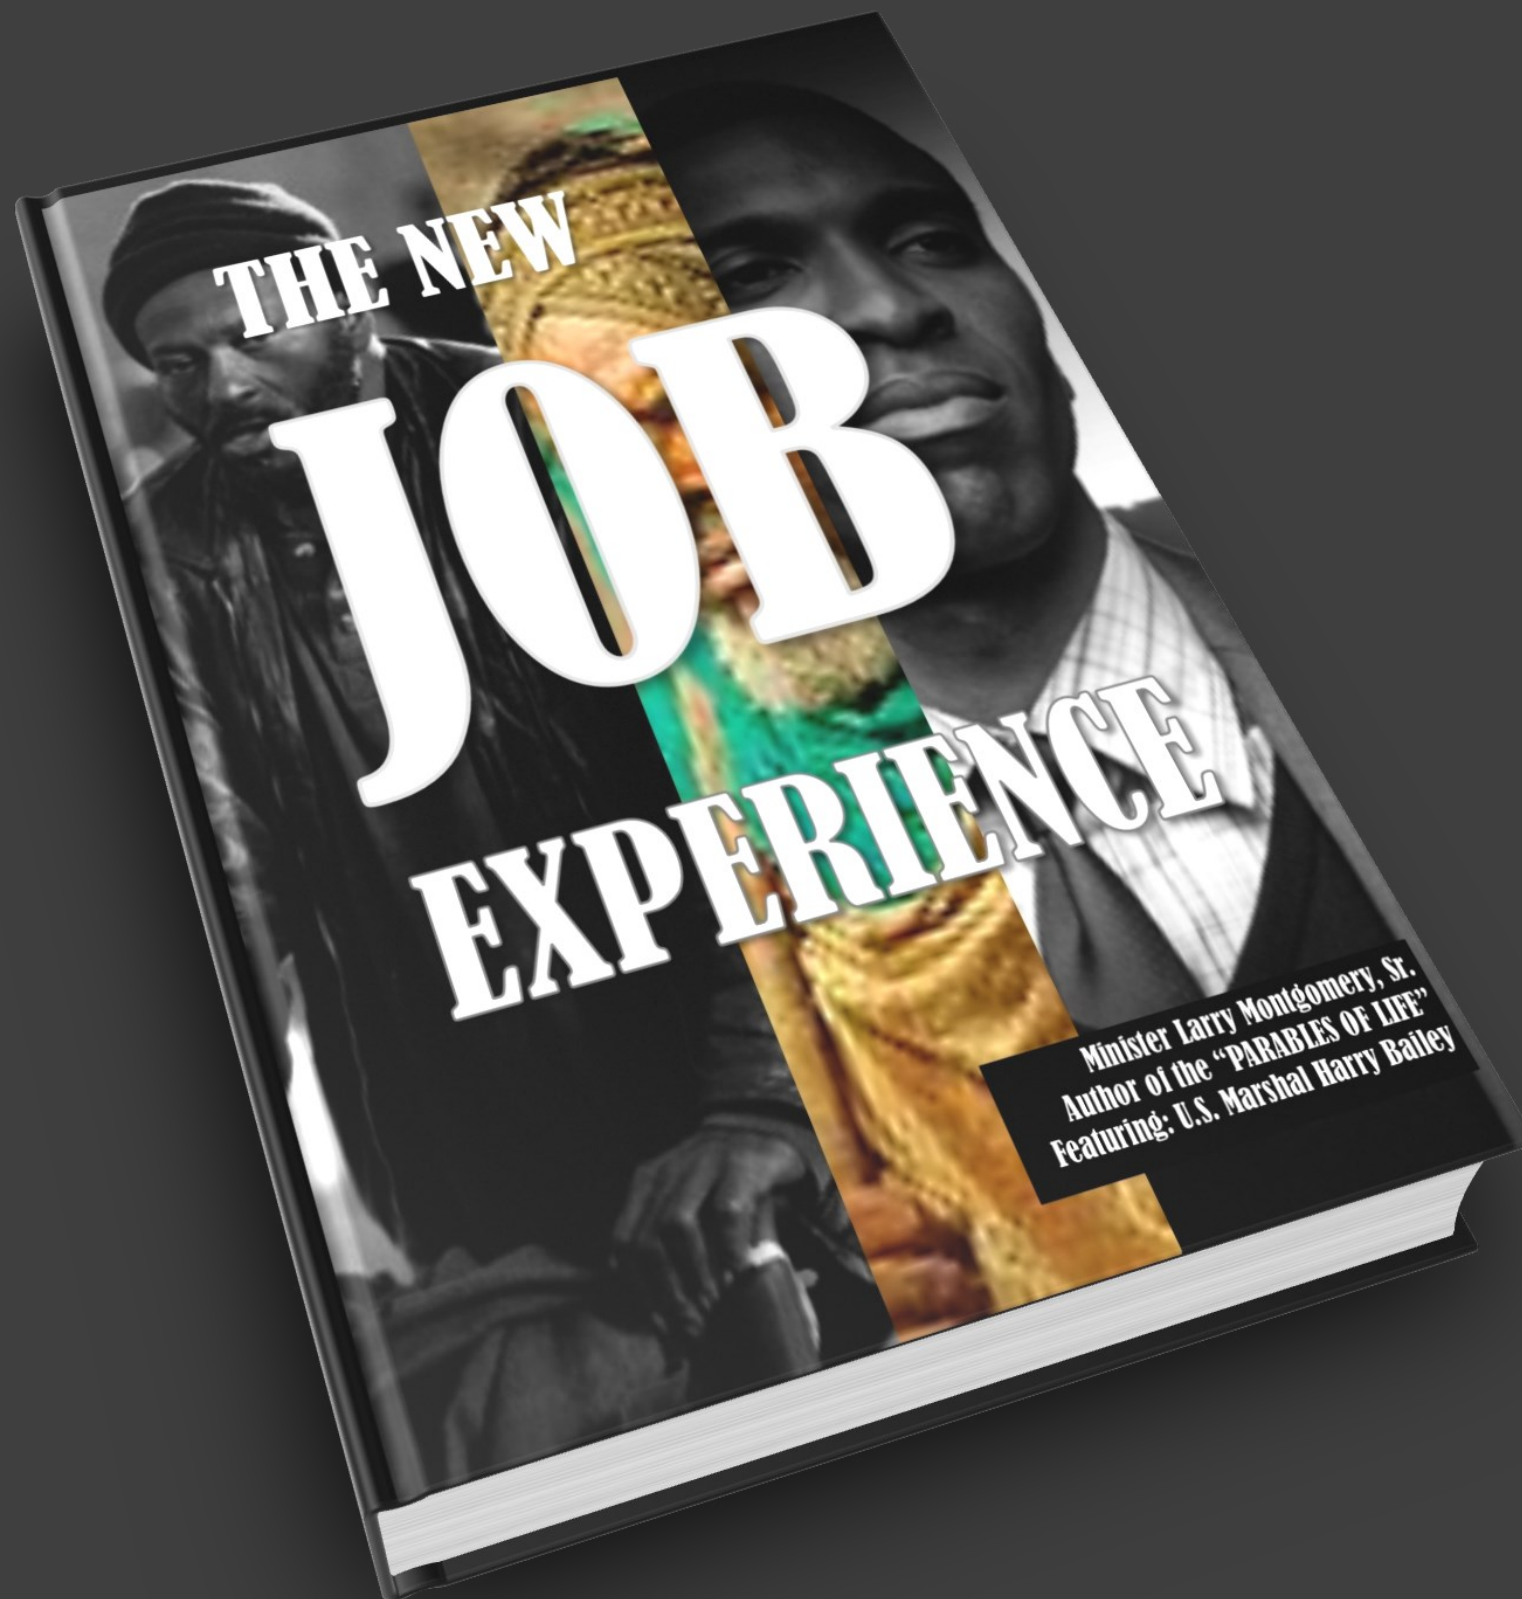

Job was tested. With a life filled with prestige, possessions, and people, he was suddenly assaulted on every side, devastated, stripped down to his foundation. But his life was built on God, and he endured.

Job, the book, tells the story of Job, the man of God. It is a gripping drama of riches-to-rags-to-riches, a theological treatise about suffering and divine sovereignty and a picture of faith that endures.

As you read this book, analyze your life and check your foundation. No foundation is perfect or else you would be God like. Bernard Thomas a ghetto thug, a drunk, a pimp, a womanizer, a liar and a thief never labelled himself any of these things because he always believed he was a good and righteous man. Until the day he meet himself at deaths door and learned what kind of a demon he really was.

Then watch and see how he struggled to turn that reality into a forgotten past and transformed himself into the righteous man he really thought he was.

Now look at what he accomplished and see if you are able to say that when all is gone "but God...", will he be enough?
